

Wireless Productivity For Your Warehouse

"The first month after we implemented OzLINK Mobile, we celebrated our first month without a single known mis-shipment to our customers. OzLINK not only improved our fulfillment accuracy, but also efficiency in the warehouse."

-Will Blount, President, Ruff Wear

"Adding OzLINK has allowed us to streamline our whole system and now each individual is more effective in their daily activities. OzLINK saved us from having to hire additional employees which would have increased our overhead costs."

-Jay Moltz, IT/Operations Manager, IBEX Outdoor Clothing
